

With videos of parents demonstrating the activities!

Playclub 4 now available!

The
**PLAY
CLUB**
Project

*"They're fantastic!
There's very little
preparation needed.
Pupil Premium
funded children
who are behind will
massively benefit!"*

Providing fun interactive learning activities to engage parents in raising attainment in phonics, reading, writing, communication and language for EYFS and KS1 children.

This project will help your school/setting to:

- ★ Provide activities which stimulate **communication and language development** at home
- ★ Enable the key person to **'engage and support parents/carers** in guiding their children's development at home' (requirement of the **EYFS Framework**)
- ★ Engage parents in helping to **raise attainment** for all in the **Year 1 phonics screening check**
- ★ Meet the criteria in the **Ofsted Framework** on 'helping parents to support their children's learning'
- ★ Evidence use of **Pupil Premium funding** by raising achievement in low attaining pupils

This successful, sustainable project involves schools and settings loaning a variety of exciting Playclub bags to families every week over 6 weeks, with achievements being recorded and celebrated through a Playclub card and certificate.

Playclub 4 resources

- **8 orange bags** to develop Phase 5 letters and sounds and applied reading and writing. Activities include fishing for 'oo' sounds on Mister Magnolia's boots, a treasure island board game, throwing frogs onto sounds on lily pads, and a play about a wizard.
- A card in each bag explaining the activities
- A teachers' handbook and CD Rom with step-by-step instructions on how to run the project including publicity templates, Playclub cards, record sheets, ideas for workshops, evaluation forms and certificates

£259 + VAT for a full set of resources (includes p+p)

Playbags
learning together

At St John's Primary School Longsight, "the phonics screen test was done before and after the project. None of the children had passed when the trial test was carried out before the project. However after completion of the project, 85% children made huge improvements in their phonics score and 71% passed the formal test."
